

## Are you an economic analyst with a passion to help Australia deliver more renewable energy?

### Economic Analyst

We, at Energy Networks Australia, are looking for a new team member to help shape Australia's energy future.

Energy Networks Australia is the peak national body representing Australia's gas distribution and electricity transmission and distribution network businesses. These businesses deliver energy to nearly every household and business in the country. We are a key participant in the development of a better understanding of energy issues across the entire Australian community.

As Economic Analyst, you will mainly work on supporting the development of economic regulatory policy but will also provide data analysis covering a variety of issues affecting the energy (electricity and gas) network sector. You will create communications and advocacy content that will allow us to communicate effectively with our stakeholders, including Ministers, market bodies, policy makers and the general community.

This is an exciting and challenging position with a salary package that reflects the demands of the role. The position is based in the Melbourne CBD. It would suit someone with 2 to 5 years' experience with qualifications in law, economics or another relevant discipline.

#### What the role involves:

- » Assist in developing policy solutions and quantitative economic analysis, particularly in relation to economic regulation, competition policy and market reform issues affecting the energy networks sector;
- » Support delivering projects, policy development and advocacy for renewable gas including hydrogen and biomethane;
- » Collect and analyze relevant data, industry statistics and information;
- » Provide support in drafting policy and advocacy documents such as reports, speeches, articles, presentations, briefings and submission papers;
- » Monitor sector developments and maintain watching brief of key issues of interest to Energy Networks Australia members;
- » Provide support to the relevant Energy Networks Australia committees and working groups;
- » Contribution to organisational planning; and
- » Other activities as directed by the CEO.

## What's on offer

This is an exciting and challenging position based in Melbourne CBD. While your role will focus on economic regulation, you will work across the organisation. You will gain experience by becoming involved in committees and working groups, with significant exposure to and interaction with senior executives in the industry.

We are supportive of further professional development and learning and will help you grow your economic analyst skills and develop further knowledge of the energy sector.

The right candidate will be offered a salary between \$95,000 to \$105,000 (incl super) depending on experience. In addition to this, an annual performance bonus will be offered.

## Do you want to apply?

To apply for the above position, **please forward your CV and a 2 page statement** outlining how your experience and skills addresses the following selection criteria:

### *Essential:*

- » The ability to research policy issues and collect and analyse data on matters affecting the energy network industry;
- » Strong oral and written communication skills including the ability to prepare submissions, presentations and reports;
- » Strong interpersonal skills that enable successful liaison with external regulatory bodies, Energy Networks Australia's members and other stakeholders;
- » A team player and self-starter that can manage multiple projects at once;
- » Two to five years work experience; and
- » Academic qualifications in law, economics or another relevant discipline.

### *Desirable:*

- » Knowledge of electricity and gas network issues; and
- » Experience in a member-based organisation or similar.

Please forward your CV, together with a statement addressing the selection criteria to Fiona Clothier at [info@energynetworks.com.au](mailto:info@energynetworks.com.au) no later than **5pm, Monday, 28 March 2022**. Only applications accompanied by a statement against the selection criteria will be considered for this position.

Further enquiries can be made by contacting Lucy Moon on 03 9103 0400 or [info@energynetworks.com.au](mailto:info@energynetworks.com.au)
