

General Manager Networks

Salary range \$200,000+ (incl super) plus bonus

Energy Networks Australia is the peak national body representing Australia's gas distribution and electricity transmission and distribution businesses. It is a key participant in the development of a better understanding of energy issues across the entire Australian community. For further information, see our website at <http://www.energynetworks.com.au>.

Help Shape Australia's Energy Future

Reporting to the Chief Executive Officer, the General Manager Networks is responsible for a crucial area of policy development to support the rapid transformation of Australia's energy sector.

In this role, you will lead Energy Networks Australia's industry advocacy strategies and program of work for network development, transmission policy and asset management. The role requires close engagement with senior industry members and key stakeholders in government and regulatory agencies.

This is an exciting and challenging position with a salary package that reflects the seniority and demands of the role. The position is based in the Melbourne CBD.

Key Areas of Responsibility:

- » Support the CEO and the Board in policy development, advocacy strategies, analysis and research particularly in relation to distribution network development, transmission policy, asset management, smart grids, network services and demand management
- » Liaison with Commonwealth, State and Territory government agencies, market and regulatory bodies, network businesses and other stakeholders;
- » Oversee Energy Networks Australia's ongoing network transformation program;
- » Ensure the efficient operation of the Members' Asset Management Committee, the Transmission Committee and their project teams to meet the strategic objectives set by the Board;
- » Lead the development of all materials for the committees as well as relevant items for the CEO Forum and Board;
- » Monitor energy sector developments and ensure the network transformation team regularly provides material for advocacy and communications.

Selection Criteria

To apply for the above position, **all applicants must submit a statement** addressing each of the following selection criteria:

Essential:

1. Effective and inclusive leadership;
2. Excellent time management skills and ability to manage competing priorities
3. Ability to identify and focus on key strategic issues in the transformation of energy networks;
4. Outstanding interpersonal skills and demonstrated capacity to manage strategic relationships with key government and regulatory policymakers as well as key energy network personnel to influence mutually beneficial outcomes;
5. A deep understanding of electricity policy, regulatory and market reform processes;
6. Demonstrated capacity to manage a technical function and foster teamwork across an organisation; and
7. Tertiary qualifications in engineering, science, economics or other relevant discipline;

Desirable:

8. Experience in a member-based organisation or similar would be of value.

Please forward your CV, together with a statement addressing the selection criteria to Alan Wilson at alan@alanwilsonconsulting.com.au no later than **5pm, Monday 11 February 2019**.

Note only applications including a statement addressing the selection criteria will be considered for this position.
