

Session 5: Key Functionality and Actions

Table No:	What are the functions and actions that will be required as a matter of priority and could be considered as 'No-Regrets' actions
Revisit the Key Functionality, key actions identified in Session 3, and the Framework Models discussed in Session 4, and identify what functions and actions should be considered as immediate no-regret actions	
Question 1	Please identify the key Functionality that is required ASAP? Why is it a priority?
Question 2	What 'no-regrets' actions will be required to deliver the priority functionality?
Can you identify any other key actions that need to be addressed ASAP?
